

LMR CROSSBANDING

MULTI-AGENCY COMMUNICATIONS

VOCALITY ROIP GATEWAY

- Fixed or portable deployments
- Supports up to four radio audio connections
- Local channel cross-banding

FEDERAL AGENCY

- Audio Port 1
- Radio Network 1

LOCAL POLICE

- Audio Port 3
- Radio Network 3

FIRE/RESCUE

- Audio Port 4
- Radio Network 4

STATE POLICE

- Audio Port 2
- Radio Network 2

- Audio from radios is connected to the Vocality RoIP using a user-supplied donor radio and a Vocality cable.
- The Vocality RoIP supports up to four analogue audio inputs, meaning four donor radios can be connected.
- Talk Groups can be configured in the simple to use web interface, to define which audio ports/radios are linked for crossbanding.
